Professional Summary

Aspiring full-stack developer with a growing skill set in Flutter mobile development and Django REST Framework backend systems. Currently enhancing my technical expertise through an internship at Techno Dot Academy, working on real-time projects and collaborative development environments. Passionate about creating user-friendly mobile applications and robust backend APIs.

Projects

Personal Portfolio Website

portfolio-beryl-psi-72.vercel.app

- Designed and developed a personal portfolio showcasing frontend development skills.
- Built using HTML, CSS, and JavaScript with responsive UI components.

Weather Forecast Mobile App (Flutter)

- Built a mobile weather app using Flutter and REST APIs for real-time weather updates.
- Implemented Provider for state management and structured UI using reusable widgets.
- Designed responsive layouts and integrated video backgrounds for weather animations.

Currency Converter App – Flutter (Public API)

- Developed a modern currency converter app with real-time exchange rates using a public API.
- Designed an attractive and intuitive UI with custom Flutter widgets and smooth animations.
- Implemented dynamic API fetching, automatic rate updates, and seamless currency switching.

Calculator App – Flutter

- Built a fully functional calculator app with a clean and user-friendly interface.
- Implemented arithmetic operations and responsive UI layout using Flutter Grid widgets.
- Designed custom buttons, smooth input handling, and error-free calculation logic.

Task Management App – Flutter + Django REST

- Developed a task management application with user authentication and task CRUD.
- Flutter frontend communicates with Django REST backend using token-based authentication.
- Implemented models, serializers, and API endpoints for tasks and user profiles.

Experience

Flutter App Developer Intern

Apr 2025 – Present

TechnoDot Academy, Malappuram, Kerala

- Working on real-time mobile app development using Flutter.
- Building backend systems with Django REST Framework and API integration.
- Contributing to team-based projects, improving code quality, and applying industry practices.

Education

GVHSS Kalpakanchery

2020 – 2022

Higher Secondary in Vocational Science, Malappuram, Kerala

- Built foundational knowledge in scientific principles and practical vocational skills.

Skills

Programming & Development: Dart (Flutter), Python (Django REST Framework), HTML, CSS, JavaScript (Basic)

Mobile App Development: Flutter cross-platform development, UI/UX design, State management (Provider, setState)

Backend Development: RESTful APIs, Django REST Framework, SQLite & PostgreSQL, Authentication & Permissions

Soft Skills: Problem-solving, Team collaboration, Time management, Fast learner
